LONDON.

IT is observable, that (notwithstanding the Cries of the Poor, and repeated Remonstrances of the Merchants of Great-Britain) which have been so many Years given against that Error, it yet is Law, on the Importation of Wines, whether for the Use of the Royal Family, the Regulation of the Price, Quality of Wines, &c. are totally unregarded, All Liquors are to be imported, as in any common Ship, or Ships whatever, under the Penalty of the Goods (that is brought there by Wagons) to pay 20 l. per Cent. and the Ship or Vessel in which they are imported, 100 l. This Law, which is a Scandal to the Nation, is not only continued, but (to the Shame of the Legislature) is daily encreasing. That is the only other Port in the Kingdom where so much Wine is imported, and with so much Evasion, as this does, is still, in a few Words, to inculcate Wealthy this Grievance, all the most Deep, and perhaps not then. (I am sorry to say) a very [illegible] Parish: (I mean (according to the Parochial) [illegible] Land in Asia, that if ever the Bells Poor.

[XXth Year.] THURSDAY, June 28, 1764. [No. 999.]

LONDON, April 14.

IT is astonishing, that (notwithstanding the Cries of the Poor, and repeated Complaints of the Scarcity of Provisions) those who have it in their Power do not exert that Power to put a Stop to the Exportation of Wheat, before it be too late. For these six Months past, the Exportation at the Ports, instead of diminishing, has increased daily. At Lynn, in Norfolk, it is very common to see thirty, forty, or fifty Waggon Loads of Wheat delivered in a Morning; and this is not a tenth Part of the Grain that is brought there by Water; which is exported with as much Expedition as the Wind, Tide, and Shipping will admit of; and this being an inconsiderable Port, they exhaust but a small Part for the latter. Many, if the many other Ports in the Kingdom export as much Wheat in Proportion, and with as much Expedition, as this does, it will, in a few Weeks, be impossible to rectify this Grievance, till the next Crop, and perhaps not then, if we should not have a very favourable Harvest; so that (according to the old Proverb) unless the Steed is stolen, they'll shut the Stable Door.

The Integrity, Brown, from Casco Bay to London, foundered at Sea the 17th of March, in Lat. 39: 6, Long. 34: 43. The Crew were taken up by the Caledonia from Virginia to Glasgow.

Yesterday there was but a thin Market at Smithfield, and Cattle sold somewhat dearer than on Monday.—One Butcher purchased a small House-Lamb, which weighed above 20lb. but remarkably fat, for which he gave 5s 6d.

It is reported, that the Dutch Agents have given large Orders for Guns, Pistols, Swords, &c. for the Use of their Vessels going to the East-Indies; all to be furnished with the utmost Expedition.

A considerable Quantity of Plate, Furniture, &c. the Property of a late Stockjobber for Liberty, has for these several preceding Days, been selling at the Royal Exchange.

Large Orders are gone to Cork and Dublin, for Beef, Pork, and Butter, which it is hoped will in some Measure reduce the exorbitant Price of Provisions in this City, &c.

March 24. It is with the greatest Satisfaction we can assure the Public, that from the great Attention our most gracious Sovereign has for the Good of his Subjects, the Isle of Man is soon like to be purchased of its Proprietors, and annexed to the Crown of Great-Britain. We need not remind our Readers how often, and in what a Variety of Shapes so important a Measure, both in the Hon. House of Commons, and out of it, has been to no Manner of Purpose recommended for above thirty Years past, altho' the fatal Effects arising from this notorious Seat of Smuggling have so glaringly disgraced and impoverished the Nation.

The Russian Ministers at Ratisbon and Hamburgh, are engaging a great Number of German Families, Manufacturers, &c. to go and settle in the South-East Part of Russia; as soon as they enter, a Man has 5, a Woman 5, a Child 3 Shillings heavy Money, allowed them daily for their Maintenance, and they are sent to Lubeck at the Empress of Russia's Expence, where they embark for Petersburgh.

Yesterday arrived here a Mail from Lisbon, in 16 Days, by which we have Advice of the Arrival there of 32 English Ships, all laden with Corn from London.

The new Treaty of Commerce between this Court and Russia is far advanced, and will be, it is said, very advantageous to the two Nations—though the English Colonies of America are now in a Condition to furnish us with many Articles which we have a long Time imported from the Northern Countries.

About Three Weeks ago an Officer of the Regiment of Champagne being at Mass at Douay in French Flanders, a Burgher happened to tread upon his Dog, which so exasperated the Officer, that he beat the Man severely; and, on his making Resistance, killed him on the Spot. This Outrage so incensed the Inhabitants, that they gathered about the House where the Officer lodged, demolished the Windows, seiz'd his Baggage, and threw it out into the Street; broke his Post-chaise, and ham-string'd his Horses, and afterwards fell upon the Officer, and drag'd him through the Kennel, till he died. The Officers on Duty taking the Alarm, came to Arms, secured all the Gates, fell upon the Townsmen, and killed Nine, wounded many more, and soon dispersed the rest. This Affair being properly represented, is now under Consideration at Court, and it is thought the Regiment will be broke.

The Distemper among the horned Cattle has very much ceased, which has been effected by hanging Four or Five Onions about the Beast's Neck directly after they are taken ill, and will not eat. Those Onions draw the Infection out, and look the next Day as if they had been boiled. This Remedy is to be repeated several times, and the Onions which have been used, are to be buried in a deep Hole. In a few Days after, the Cattle are taken with a Reaping at the Nose, which carries off that Distemper. It is also proper at that Time to hang up some Onions in the Distemper'd Cattle's Stables.

April 7. On Wednesday Evening the Theatre of the Society of Arts, &c. in the Strand, were given to Lord Southwell, for commemorating a Piece of Manufacture, made by some of our American Indians, of a West-India Silk Grass. A Manufacture, the Ingenuity of which was very much admired.

April 10. Yesterday Morning several Thousand Journeymen Silk Weavers went in Procession from Spitalfields, and waited on his Majesty at the Queen's Palace in St. James's-Park, with a Petition, representing the miserable Condition to which Themselves and Families are reduced by the clandestine Importation of French Silks. They entered before the Court-yard, and two Gentlemen, belonging to the said Manufactory, had the Honour to be introduced to his Majesty's Presence, and present their Petition which his Majesty received in the most gracious Manner, and gave for Answer, That they might depend on his Care and Protection. As they went along they distributed a great Number of the following Hand-Bills:

To the PUBLIC.

"The Policy of our natural Enemies the French "is of late become so prevalent in this Kingdom, "encouraged and supported by many base Artifi"cers amongst his Majesty's Subjects dwelling in "these Kingdoms, that the Silk Manufactory, of "such Consequence to this Nation, in all Proba"bility is at the Brink of Ruin, by the Encou"ragement given to our once perfidious Enemies, "in buying and exposing to Sale, and consuming "the Produce of their Manufactories, and by such "illicit Practices Hundreds of us, who have ser"ved his Majesty in the late War by Sea and "Land, together with helpless Families, are out "of Employ, and reduced to the lowest Ebb, "therefore are under the indispensible Obligation "of taking this Step in presenting a most humble "Petition to his Most Sacred Majesty, that he will "be most graciously pleased to order a speedy "Enquiry into the Decay of a Manufactory so "valuable and extensive in its various Branches, "and of such Consequence to his Majesty's Re"venues, and the Nation in general: At the "same Time we most humbly hope for the Ap"probation of every Well Wisher to his Most Sa"cred Majesty, our Country, and happy Consti"tution, and beg Leave to subscribe ourselves "yours,

"The Journeyman Silk-Weavers."

A few Days since died at her Lodgings in Piccadilly, Mrs. Elizabeth Taylor, aged 131, being born in the Year 1633.

On the 22d ult. the Parliament of Rouen issued an Arret, enjoining all Jesuits within their Jurisdiction to depart the Kingdom of France within the Space of one Month, unless they could prove their having abandoned the Society before the 12th of February 1762, or their having taken the Oaths prescribed before the 2nd of March 1764, even if they should offer to take them now. In Case of old Age or Infirmity, Application shall be made to the Clerk of the Parliament.

The distinguished Honours paid to Achmet Effendi at the Court of Berlin, and the frequent Couriers that pass and re-pass between that City and the Ottoman Porte, being to diffuse a certain Degree of Anxiety into the Mind of the Ministers at Vienna, and even to disturb the Tranquility of her Imperial Majesty. This Anxiety has been increased by News received from Holland of a Remittance of Four Millions of Florins, sent by his Prussian Majesty to Constantinople, by the Way of Amsterdam. This Remittance cannot be supposed to have any Relation to the Affairs of Poland, since it is said, that the Courts of Petersburgh and Berlin have already taken sufficient Measures, in Conjunction, to fix that Crown upon the Head of the Count Poniatowski. It is therefore imagined that these Four Millions are not designed to buy Coffee and Sherbet, but have some Object more alarming to those that lie within the Reach of his Ottoman Highness. Achmet Effendi is charmed with the Manners, as well as dazzled with the Glory of his Prussian Majesty, and finds something truly oriental in them.

Edinburgh, April 2. Yesterday Morning the great solar Eclipse was observed here with great Distinctness. The Sky was remarkably clear and serene, and the Sun in full Brightness, when the Eclipse began, which was about Nine Minutes after Nine in the Morning. The middle or greatest Obscuration, was about 24 Minutes after Ten, and the Eclipse ended about 7 Minutes before 12. During the Eclipse, the Thermometer fell 27 Degrees and a Half. Being exposed to the Sun before the Eclipse began, it rose from 65 to 73. At the Time of the greatest Obscuration, it fell to 55 and a Half; and at the End of the Eclipse, it rose again to 61. The Churches did not meet till after Eleven.

Cork, April 22. Arrived the Buxford, of 64 Guns, Capt. Leggie, from Plymouth; she is one of the Ships destined to take on board the Troops for the West-Indies.

PROVIDENCE, June 11.

Tuesday last Capt. Larcher, in the Sloop Windsor, arrived here from the Grenades; but having had a long Passage, brings nothing new from thence. He informs, that in his outward bound Passage, he took up a Man at Sea, who belonged to a Vessel commanded by one George Allen, bound from Cape-fear to Barbados having by some Accident fallen overboard: He had been in the Water near an Hour and a Half, during which Time his Captain never put the Vessel about, or took any other Pains for his Preservation, than throwing an old Barrel after him, depending on Capt. Larcher's coming up, who, at that Time was at least two Leagues a-stern, by which inhuman Neglect, the poor Fellow was so far spent when he was taken up, that it was with the utmost Difficulty his Life was preserved.—[Masters of Vessels cannot take too much Pains in saving the Lives of their People, when under such unfortunate Circumstances; yet there is much Reason to fear there are some, who through Negligence, or too great a Regard for their own Interest, omit discharging such Offices of Humanity in the Manner they ought, by which no doubt, some perish, who might be saved, if proper Measures were taken, as this recent Instance may serve to demonstrate.]

NEW-YORK, June 18.

On Monday Evening last, the NEW-YORK LIGHT-HOUSE, erected at Sandy-Hook, was lighted for the first Time. The House is of an Octagon Figure, having eight equal Sides; the Diameter at the Base, 29 Feet; and at the Top of the Wall, 15 Feet. The Lanthorn is 7 Feet high; the Circumference 33 Feet. The whole Construction of the Lanthorn is Iron; the Top covered with Copper. There are 48 Oil Blazes.

The Building from the Surface is Nine Stories; the whole from Bottom to Top 103 Feet. This Structure, was undertaken by Mr. Isaac Conro, of this City, and was carried on with all the Expedition that the Difficulty attending so and fro on the Occasion could possibly admit of; and is judged to be masterly finished.

Wednesday the Halifax Packet, Capt. Boulderson, sailed with the Mail for Falmouth.

Saturday last, the Coventry Frigate, Archibald Kennedy, Esq; Commander, sailed for Halifax.

PHILADELPHIA, June 21.

Our Advices from Carlisle of the 11th Instant are, That the Distress in the upper Parts of that County increased daily, the Indians being often heard yelling and hallooing, in their frightful Manner, among the Hills, and through the Settlements, dispersed in small Parties of two or three together; that they had fired at several of our People; and some of them were seen not far from Fort Loudoun: That the Country was evacuated intirely (excepting two or three Families) from Shippensburgh to Loudoun: And that from the Frontiers of Virginia, all their Accounts were most melancholy, respecting the miserable Situation of the Inhabitants there, from the Barbarity of the Enemy.

And by a Gentleman from Cumberland County, since the above Date, we are informed, that Capt. Lewis, with a Party, pursued, and came up with the Enemy, who lately did so much Mischief in Augusta County, Virginia, when he engaged them, killed a Frenchman, and two Indians, and rescued some of our People they had Prisoners; which [illegible] him, that the Frenchman slain commanded the Party; that there was another Frenchman with them; and that from the Twenty-second of last Month there had been One Hundred People killed or carried off by the Indians, belonging to the Government of Virginia.—He also informed us, that Crow's Wife (mentioned in our last to be taken by the Enemy) had escaped from the Indians, and was returned; and said the Indians that took her and Children were only Three, the whole Party did consist of Five, but they imagined the other two to be killed, as they had not been them for some Time. That two of our Soldiers,

in Shearman's Valley, saw two Indians making a Blind on the Road with Bushes, in order to lie behind it; that one of them seeing our People, got behind a Tree, but the other not perceiving the Soldier, one of them had a fair Shot at him, and imagined he shot him thro' the Body; upon which they went to their Officer, and told him what had happened, who sent a Party to the Place, where they found a great deal of Blood, and a Bit of Fat, supposed to come out with the Ball.

ANNAPOLIS, *June* 28.

We hear, that lately a great Number of People have Died in *Talbot* County, especially Negroes, of a malignant Distemper, supposed to have been brought in by a Vessel with Servants from *Ireland*; but that it is now in some measure abated.

On Tuesday last Week, one *Robert King*, a Man who had a Wife and Six Children, having been Drinking too much at *George-Town* in *Frederick* County, complain'd that he was too Hot, and very foolishly stripp'd and plunged into the Water to cool himself; but was immediately Drowned. WHEREAS it has been most spitefully Reported, that I Bribed a certain *John Pearson* to ride Booty, in the Race Run between *Dove* and *Driver*, the Tenth of *April* last, without any other Foundation than bare Surmise, to the very great Prejudice of my Character: And as such injurious Aspersions may tend to destroy my Reputation, I take this Public Method, well knowing my Innocence, to assert the said Report to be scandalously false, and that if any Person or Persons can make it appear, that I really was guilty of bribeing the said *Pearson*, I will oblige myself to have the Money lost upon Dr. *Hamilton's* Horse, Return'd to those that lost it; and if it can not be made appear, I hope every one will look upon me to be Innocent of so scandalous a Charge, and to think the Scandal ought to Recoil on the Head or Heads of the Author or Authors of so scandalous a Report, against their injured humble Servant,
